Krisha Khokhar

Frontend Web Developer

Work Experience - Fresher

Projects

ARSHA

- https://arsha-ten.vercel.app/
- **ARSHA** is a modern and responsive single-page website designed to showcase futuristic and dynamic space-themed content. The project incorporates HTML, CSS, JavaScript, and Bootstrap to create an engaging and visually appealing layout. The website is fully responsive using Bootstrap's grid system, custom CSS, and media queries. The project is deployed live using GitHub and Vercel.

Cake Bakery

- https://cake-bakery-lovat.vercel.app/
- **Cake Bakery** is a one-page modern web application built using React.js for the frontend. The website features a clean and responsive design with the help of Bootstrap and CSS. It's designed to be fully mobile-responsive, offering an engaging user experience across all devices. The website is deployed live using GitHub for version control and Vercel for hosting.

Foodrant

- https://foodrant.vercel.app/
- **Foodrant** Web is a professional, modern one-page web application developed using React.js for the frontend. The project utilizes Bootstrap 5 and CSS3 to create a clean, responsive design that works seamlessly on all screen sizes. It focuses on delivering a minimalist yet functional user experience. **Foodrant** Web is live-hosted using GitHub for version control and Vercel for deployment, ensuring smooth updates and continuous integration.

Other Projects

- https://inventorymanage-web.vercel.app/
- Product Managment Web (with CRUD Opration)
- Employees Details Managment (with CRUD Opration , Authentication).
